

PREPAIR & FINISH

MP ONE BLUE

Technical Data:

- high-performance one-step polishing compound for paint correction and high-gloss finishing in a single step
- efficiently removes scratches, signs of wear, and light to moderate paint defects, saving time during the polishing process
- innovative abrasive particle technology for an optimal balance between cut and gloss
- delivers outstanding correction results while achieving an impressive deep gloss finish
- reliably reduces holograms and polishing marks, even on dark and sensitive paint finishes
