

Pro Mix[®] Industry Phosphoric Grün

Safety with effects

The colour concentrate **Pro Mix[®] Industry Phosphoric Grün** allows to create phosphorescent, i.e. glow-in-the-dark coatings. The Pro Mix Industry mixing system is designed to produce 1K or 2K paint qualities for a wide range of different applications and requirements.

The area of application of glow-in-the-dark paints ranges from markings in danger zones to decorative purposes.
