

Pro Mix® Glanzgradfächer

Identify gloss levels quickly and easily

Pro Mix® Glanzgradfächer

From dull matt to high gloss:
The Pro Mix® Glanzgradfächer is suitable to quickly and easily identify the gloss level of surfaces. This useful swatch has been especially designed to match the Mipa Pro Mix® paint qualities and, thanks to the different colour shades of white, grey and black, allows a direct and precise comparison with the coating to be assessed.
